Hear the lessons learned by the Greater Victoria Public Library trustees and management as they undertook developing their facilities plan. Discover the key points to consider when developing a facilities plan from both a trustee perspective and a library management perspective.

PART 2: BCLTA INFRASTRUCTURE STUDY

In 2009, the BCLTA undertook a province-wide assessment of the current state of facilities infrastructure that supports our library systems. Hear about the approach they took and the findings of the report that was completed as part of that assessment.
