ABCPLD Public Library Salary Survey

Attention Library Board Chairs/BCLTA Liaisons:

(Please excuse cross-postings.)

Attached is the "BC Public Libraries Salary Survey for Library Populations of Approximately 20,000 or Less," dated February 18, 2009 and prepared by the Association of BC Public Library Directors' Salary Survey Committee.

The survey was sent out via email in October of 2008 to all BC public libraries serving populations of 20,000 or less. A total of 36 libraries completed the survey, with service populations ranging from 600 to 22,000.

Results are divided into libraries serving populations of less than 8,000 (23 respondents) and libraries serving populations of more than 8,000 (13 respondents). Data are based on educational requirements, benefits received and pay rates; and are grouped by position heading (head librarian, assistant director, clerk).
